Event Report: Animal Handling Workshop

Date: April 22, 2025

Venue: HIMT College of Pharmacy

An **Animal Handling Workshop** was successfully conducted at **HIMT College of Pharmacy** on **April 22, 2025**, under the able guidance and supervision of **Ms. Preeti Kuniyal**, a distinguished faculty member of the institution. The session was organized as part of the academic and research enrichment initiatives of the college, aimed at enhancing the practical knowledge and skills of students in the area of pre-clinical research.

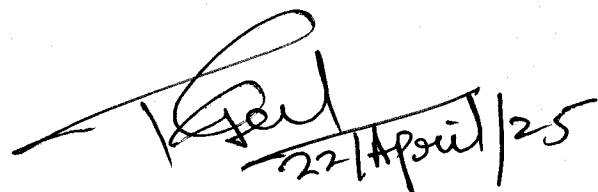

The workshop focused on the **ethical and scientific handling of laboratory animals**, which is a critical component in pharmaceutical and biomedical research. Students were educated about the **standard procedures for handling, restraining, and caring for laboratory animals**, ensuring adherence to animal welfare guidelines and CPCSEA (Committee for the Purpose of Control and Supervision of Experiments on Animals) protocols.

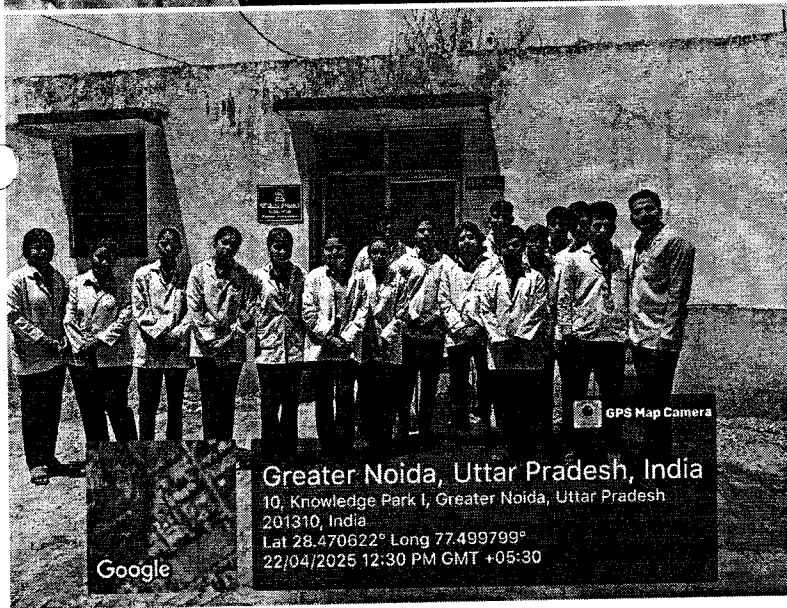

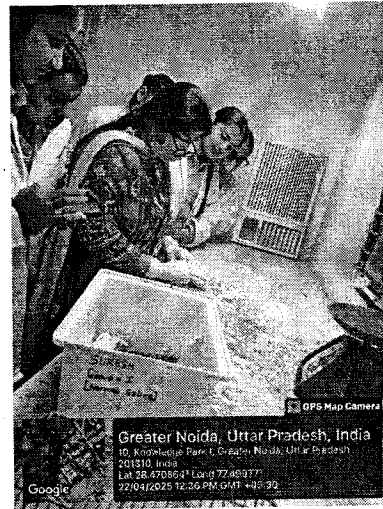

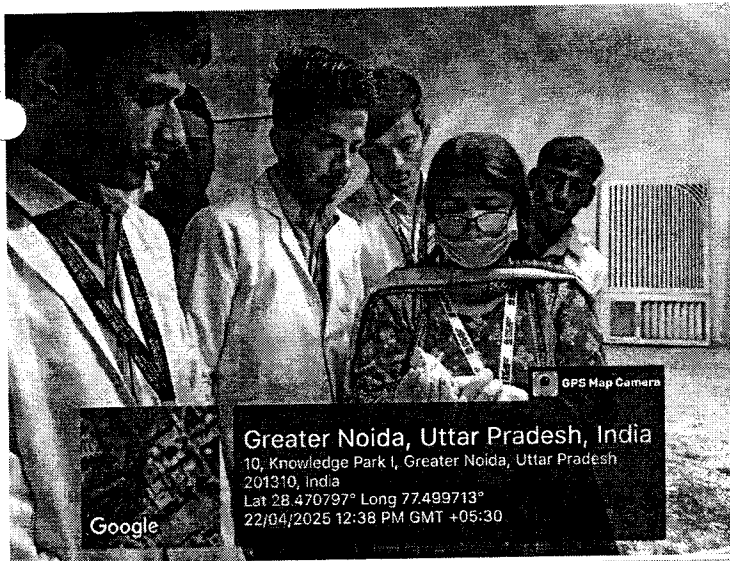

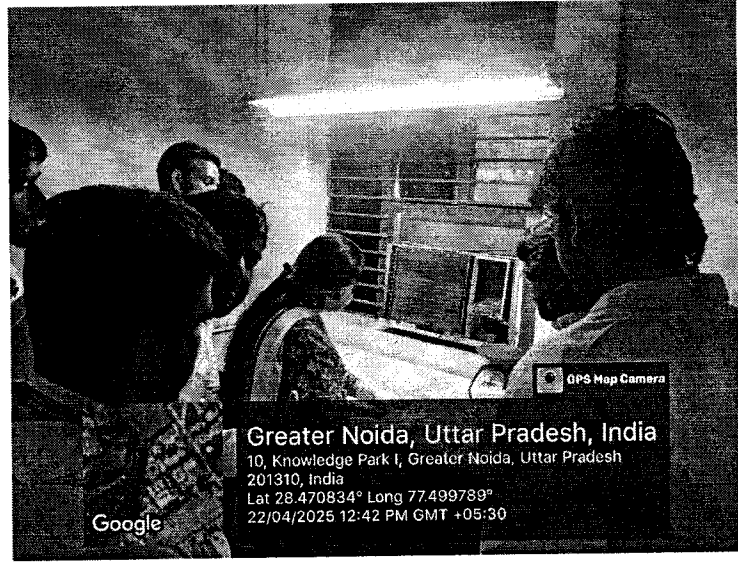

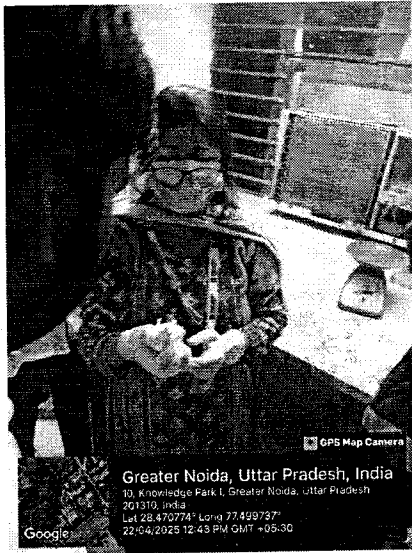

Ms. Preeti Kuniyal emphasized the importance of **humane treatment and ethical responsibility** while working with animals in research. The session included **live demonstrations and hands-on training**, providing the students with valuable experiential learning. The participants were actively engaged and expressed great interest in learning the techniques that are crucial for conducting reliable and responsible scientific studies.

The event concluded with a Q&A session, where students clarified their doubts and gained further insights into the role of animal handling in research methodology. The session was highly informative and well-received, contributing significantly to the practical competency and professional development of the participants.

Outcome:

The workshop was a great success and met its objective of familiarizing students with the essential techniques and ethical considerations of animal handling in research. It reinforced the college's commitment to producing skilled and ethically aware pharmacy professionals.
